Primary Functions

- Serve as an “on-call” lineman on a rotating basis for power outages after regular office hours.
- Must be skilled in first aid and CPR and able to administer emergency medical assistance.
- Maintains the confidentiality of all information processed in the normal course of work except when authorized legally to disclose it.
- Maintains adequate PPE clothing for purposes of health and safety protection.
- Follows all TVEPA policies and procedures.
- Keeps accurate daily time and charges to proper accounts.
- Is responsible for tracking the location of and maintaining assigned tools and equipment in a proper and safe working condition.
- Conducts oneself at all times in such a manner as would reflect positively upon all of those associated with TVEPA.
- Adheres to all TVEPA policies related to EEOC employee discrimination and harassment, EPA environmental, and OSHA safety compliance. Takes immediate corrective action and reports any incidents or violations to their immediate supervisor as soon as possible.
- Must have a working knowledge of the assigned portion of the distribution system, such as the location of lines, source of power, the direction of feeds, metering point locations, the magnitude of line currents, voltage levels, and location of oil circuit reclosures and line fuses.
- Has a working knowledge of the Rural Utilities Service Specifications and guidelines on the construction of TVEPA overhead and underground distribution lines.
- Must be willing and able to respond to outages at any hour of the day and night, on weekends, and on holidays in all weather conditions.
- Installs and removes meters
- Installs and removes transformers.
- Processes connect disconnects, change-outs, and trouble orders in accordance with established policies.
- Prepares special reports as needed to advise the Director of Operations of changes in condition on consumer’s premises.
- Performs maintenance of distribution and transmission facilities as required or directed.
- Performs voltage tests for voltage complaints.

- Investigates consumer service complaints and outage reports. Takes the proper corrective action.
- Inspects transformer and meter connections before energizing to determine if construction codes and safety precautions are met.
- Has a working knowledge of the hazards that exist in the form of falls, electric shocks, electric flash, falling objects, and traffic.
- Makes preliminary sketch work orders.
- Has a working knowledge of substations, switching devices, transformer banks, oil circuit breakers, voltage regulators, and technical equipment.
- Maintains tools and equipment issued and frequently checks them for safety and proper working condition.
- Ensures that work locations are left in a condition appropriate for public safety and member satisfaction.
- Drives TVEPA vehicles as assigned in accordance with state laws and safety practices.
- Is responsible for the proper care, use, handling, protection, and accountability of all materials issued to him for specified jobs and for the accuracy of all reports as to the use of such materials.
- Has a working knowledge of and is accountable for adhering to bucket weight limits.
- Has a working knowledge of the use of protective equipment
- Maintains a Class A CDL
- Utilize radio for communications.
- Perform any other duties assigned to fulfill the objectives of the Association

The above statements are intended to describe the general nature and level of work being performed by people assigned to this classification. They are not intended to be construed as an exhaustive list of all duties and responsibilities of personnel so classified.
